

"Pepper's Ghost"  
Reflector Template  
for Karter 1000ml  
GG-17 Flask

Print or trace this shape onto card stock paper.  
Then, roll it up and put it inside the flask.

Flatten the shape out with a butter knife or other  
tool inside the flask. Remove and adjust as needed.

Use the adjusted template to trace onto  
transparent plastic to create the final reflector.
