STYLE NUMBER:	PS-1 SUIT		FABRICATION	SPUN-BOND FABRIC	
DESCRIPTION:	REPLICATED PROTECTI	VE SUIT	INITIATED BY:	MICH DULCE for MANILA PROTECTIVE G	GEAR SEWING CLUB
DATE:	MARCH 25, 2020		CREATED BY:	KENDI MARISTELA	
ITEM	PLACEMENT	COLOR	REMARKS		
Fabric: Spun-Bond Fabric	Body, Sleeve, Hood	Not Specified	Materials should be able to resist soaking from blood and other fluids. Suggested alternative materials to create non medical grade suits are water repellant fabrics like nylon tafetta or poly microfiber , commonly used as fabric for umbrellas and raincoats. These can be reused and washed. For a disposable version, non woven material of at least 50gsm can be utilized. Do a drop test with water to check if it will repel liquids.		
ZiPROTECTIVEr + ZiPROTECTIVEr Pull Tab	Centerfront, 26"	Match with fabric	Finished zip of 28" should be used, but if unavailable, a continious zip with pull may be used. If no zippers are available, adjust the pattern to create an overlap of at least 2" per side to secure with velcro. Make sure it closes securely.		
1/4" Twill Tape (Flat) 41" long per suit	Draw String at Hood Centerfront	Match with fabric	Alternative materials: Bias tapes, shoelace, self-fabric bias tape, ribbon.		
1/4" Rubber Elastic Tape	Sleeve hem Bottom Hem	Black/White	Alternative: 1/4" garter, 1/4" mobilon		
Thread	Seams, ziPROTECTIVEr	Match with fabric	Notes: Use Tex size between Tex 24 to 30 only (or Tiket 80 to Tiket 120)
